

Personal Statement

I am co-founder of Geoshepherds, a geo design consultancy based in Sweden. I have spent the past 8 years developing a strong business acumen and vision from my work in managerial positions in Canada, Australia and Scandinavia. More recently, I have focused on developing strong technical skills within the geospatial industry for integration with web development and data science. I am driven by challenges, personal development and finding solutions to everyday problems.

Skills

Eductaion

(2015 - 2016)	Team Treehouse HTML, Javascript, CSS, Design, Development Tools, PHP, npm, Node.js, Mocha, Gulp, Babel, ES6
(2015)	ESA - Monitoring Earth from Space Course covering recent and current satellite missions providing an archive of essential data and its uses in local and international policy and planning
(2015)	W3 Schools HTML, HTML5, CSS, CSS3, SQL

(2004 - 2007)	Kungsholmens Musikgymnasium, Stockholm, Sweden Social Studies and Music Degree

Interests

- The feeling you get from practicing, listening to, and for the first time hearing, a piece of well written music
- Travel - to broaden views, explore new regions, challenge mindsets and unexpected encounters
- Design - visually powerful, intellectually elegant, timeless

Work Experience

(2015 - current)	Co-Founder Geoshepherds - Uppsala, Sweden
(2013 - 2015)	Manager Escape Travel - Perth, Australia
(2012 - 2013)	Property Manager / BDM Acton Coogee Real Estate - Perth, Australia

(2009 - 2011)	Department Manager Sport Chek - Victoria, Canada
(2009)	Sales Representative Heron Group of Companies, Toronto, Canada

- The fresh perspective, revitalised mind and clear vision that can only be found in the Outdoors
- Surfing for fun, for technique, for balance, to be in the now, for the thrill of riding a wave, and, for the humbling experience of being in the Ocean
- Learning - a curiosity about why things are and how they work
